Water softening is an important process, because the hardness of water in households and companies is reduced during this process.

Conditions Apply\*

The system prevents scaling/hard water stains on your taps, faucets and fixtures in your bathroom and kitchen ensuring that bathroom fittings look good as new for longer

It uses Ion-exchange technology for softening and comes with a programmable multi-port valve avoiding any manual intervention for regeneration.

Rooftop gardening is a concept that has been around as long as there have been roofs. It has been tucking plants on roofs and even green roofs, roofs covered with soil and plants, have been around for years.

There are plenty of good reasons to consider a rooftop garden:

- They make use of unused or underused space
- A garden beautifies an empty space
- They can provide privacy

Solar water heater use the sun energy to heat water during the day. This hot water is stored inside an insulated solar hot water tank for use whenever required. The sun rays have enough energy to heat water up to 55°C to 70°C which is more than sufficient for bathing and washing purpose in bathrooms and kitchen.

With no maintenance requirement, solar heater provides a low cost long term solution to getting hot water.
